

Using Blue Online Course Evaluation at IUPUI:

***Benefits, Challenges, and Lessons Learned for
Improving Teaching and Learning***

Tuesday, April 2 • 3:00 – 4:30 p.m.

Campus Center, Room CE 305

**Presenters: Howard Mzumara & Kate Forrest (IRDS) and
Douglas Jerolimov (CTL)**

Student feedback from end-of-course evaluations (Student Evaluations of Teaching, or SETs) are commonly collected by faculty and academic administrators, but how much do you know about:

- the IU/Explorance Blue Enterprise System course evaluation system used at IUPUI,
- the extent to which IUPUI uses this system to gather student data,
- how the campus uses the collected data to improve teaching and learning, and about
- how to leverage your course evaluations to improve your teaching and your students' learning?

This session will highlight some best practices associated with SETs, and participants engage in an interactive discussion about how IUPUI faculty are using student feedback to improve teaching and learning. You will also learn about the benefits, challenges, and lessons learned from a campus-wide implementation of the IU / Explorance Blue Enterprise System at IUPUI.
